Elections 2022

Nomination for Deputy Secretary

One nomination has been received for the position of Deputy Secretary. No other nominations for this position were received so there will be no voting for this position and the nomination is subject to approval by the EFI General Assembly in Amsterdam, the Netherlands.

Kay Poulton

I am currently serving my second term as a Councillor on the EFI Executive Committee and am very happy to be part of this vibrant team. I first joined EFI in 1999 when I started my job in the Manchester Transplantation Laboratory. My early days in EFI were spent as a member of the Standards Committee, which I chaired between 2008 and 2014. Shortly after that, I met some of you in your own laboratories when I became an EFI inspector, and saw how the best H&I laboratories are

organised. I hope that I have learned from you all, and thank you for your hospitality and support. More recently, I became a UK EFI Commissioner and am looking forward to working more closely with those on the Accreditation Committee. My background means that I am familiar with the way that the different parts of EFI fit together and I'm proud to be part of this society which brings H&I together, worldwide. I'd very much like to take on this role of Deputy Secretary so that I can increase my contribution to the Executive Committee and to EFI as a society.
