

GenDx, experts in transplant diagnostics

GenDx is a global leader in molecular diagnostic solutions for matching donors and patients and monitoring transplant success. We combine our cutting-edge software and reagents for Sanger & Next Generation Sequencing HLA typing and Chimerism monitoring with excellent customer support and education. With a highly educated and motivated team of approximately 80 people, we contribute to the quality of life of transplant patients. Do you want to be part of an innovative company that offers excellent working conditions and ample time for personal development?

**To represent GenDx in the German speaking market, we are looking for a
passionate and self-motivated**

SALES & APPLICATION SPECIALIST (PhD, B.ASc)

to empower customers with HLA typing and Chimerism monitoring

This position requires a strong background in HLA typing and/or Chimerism monitoring, and you are preferably experienced with the NGS workflow on Illumina, PacBio, Oxford Nanopore or Ion Torrent platforms. You empower our customers through direct support regarding GenDx's product and service solutions, which ultimately helps to advance their research and patient care in the field of transplantation.

Responsibilities

- Support customer inquiries regarding the use of GenDx's products
- Host webinars and provide web-based support
- Perform on-site demonstrations and organize laboratory trainings
- Participate as teacher during the renowned GenDx Education activities

Requirements

- Experienced technician or scientist at an academic level in molecular biology
- 4–5 years of relevant work experience in a Life Science laboratory
- An extensive knowledge of HLA on Sequencing Based Typing (SBT) techniques, preferably experienced with both Sanger and NGS approaches
- Strong communication and presentation skills
- Represent GenDx professionally, ethically and morally at all times
- Willing to travel approximately 50% of working hours
- Excellent command of the German and English language (written and spoken)
- Native German speaker and living in Germany, preferably nearby an airport hub
- Able to work from your home office in a professional manner

For further information please call Andreas Kuhröber PhD, Chief Commercial Officer, +31 6 160 276 70.

Do we match? Send your CV and motivation to Roelien Brommersma MSc, CHRO, hrm@gendx.com. Please mention 2021_09 and your name in the e-mail subject line.

Unsolicited third party/agency profiles and resumes will not be considered.
